MEERA PILLAI

Location: Abu Dhabi, UAE | **Ph no:** +971 556964546 **Email**:meerapillai186@gmail.com |
Nationality: Indian
Visa: Dependent Visa | **Availability:** Immediate

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 4+ years of experience designing, developing, and maintaining scalable web applications. Proficient in React, Angular (16+), TypeScript, ASP.NET Core, and Web API, with strong expertise in Microsoft SQL Server (2019), including stored procedures and performance optimization. Experienced in building responsive front-end architectures, secure APIs using JWT authentication, and delivering end-to-end solutions in Agile environments. Strong problem-solving skills with a focus on clean, efficient, and maintainable code. Currently based in UAE and available for immediate joining.

CORE TECHNICAL SKILLS

Backend & APIs: ASP.NET Core (.NET 6/7), ASP.NET MVC, MVVM, Web API, C#, Entity Framework Core, LINQ, ADO.NET
Frontend: React.js, Redux Toolkit, JavaScript (ES6+), Angular (16+), TypeScript, HTML 5, CSS3, Bootstrap

API & Security: RESTful API Design, JWT Authentication
Database: MS SQL Server (2019), Stored Procedures, Query Optimization, Performance Tuning
Tools & Practices: Git, Azure DevOps, TFS, Agile/Scrum, CI/CD, Unit Testing

Other: Azure Fundamentals, Python Basics
Production Support: Incident Management, Root Cause Analysis, Application Monitoring, Bug Fixing, Log Analysis, Performance Optimization

---

PROFESSIONAL EXPERIENCE

Software Developer (.NET)
MariApps Marine Solutions Pvt Ltd – India
Oct 2021 – Apr 2025

- Developed and maintained enterprise ERP modules using ASP.NET Core, MVC, and Web API.
- Designed and implemented RESTful APIs with JWT-based authentication for secure access.
- Built responsive and user-friendly UI components using Angular (16+) and TypeScript.
- Integrated applications with Microsoft SQL Server (2019) using Entity Framework.
- Optimized SQL queries and stored procedures, improving application performance and API response time.
- Monitored applications, analysed logs, and resolved performance bottlenecks in production environments.
- Managed source control and automated deployments using Git, TFS, and Azure DevOps CI/CD pipelines.

- Participated in the full software development lifecycle from requirement analysis to deployment.
- Supported change requests, enhancements, and hotfix deployments in Agile/Scrum environment.

Backend Developer Intern
ExpertzLab Technologies – India
Mar 2021 – Sep 2021

- Developed backend modules using Python (Django) and assisted in API development and testing.
- Contributed to debugging, documentation, and performance improvements.

PROFESSIONAL DEVELOPMENT (Apr 2025 - Apr 2026)

Academic Reviewer – ICRM 2025 | *Aug–Sep 2025*

Reviewed international research papers for technical quality and originality.

React & Redux Training – **Time Training Centre, Abu Dhabi | *Oct–Nov 2025***

E-Commerce Web Application (React + .NET Core)

- Developed a full-stack e-commerce application with product browsing, cart, and checkout functionality
- Implemented user authentication and authorization using JWT
- Built dynamic product listing with filtering and search capabilities
- Designed order history module for tracking user purchases
- Integrated REST APIs for real-time frontend-backend synchronization
- Managed global state using Context API / Redux with state persistence

Technologies Used:
React, Redux/Context API, .NET Core Web API, SQL Server, Axios, JavaScript (ES6), HTML, CSS

Python & AI Fundamentals Bootcamp | *Dec 2025 (5 Days)*

- Built a Land Price Prediction ML model using Python and Random Forest
- Applied data preprocessing, feature engineering & one-hot encoding
- Achieved accurate predictions using real estate & location-based features
- Tools: Python, Pandas, Scikit-learn

Project Administrator
Four Frames Interfaces Exhibition Works LLC, UAE
June 2017 - Feb 2018

- Managed project documentation, schedules, and client communication.
- Coordinated project activities between design and technical teams.
- Ensured project milestones were met on schedule.

Research Assistant
HuT Labs, Amrita School of Engineering, India

May 2016 - Nov 2016

- Developed a gesture-controlled wheelchair system using FPGA and Arduino platforms.
- Conducted testing, documentation, and presented findings at an IEEE conference.

EDUCATION

M.Tech – VLSI Design, Amrita School of Engineering, India
AMIE – Electronics & Communication Engineering, India

CERTIFICATIONS

React Developer – Time Training Center, Abu Dhabi
Cloud Essentials with Azure – Manorama Horizon & NeST Digital Academy
AI Bootcamp with Python – Upcode Software Lab

ADDITIONAL INFORMATION

Languages: English, Hindi, Malayalam
Work Authorization: UAE Dependent Visa
